

Comfortable Camping for Families Training AT CAMP PIONEER!

April 29, 2017

Activities

This is training for all Cub Scout families who don't feel comfortable about taking their families outdoors for their family camp activities. Additionally we want to help you by exposing you to the safety rules and guidelines that pertain to the Cub Scout Program.

With your children, you will get a chance to set up your own personal family tent, experience outdoor cooking – from menu making to cooking and eating! Experience campfire safety and campfire building and take part in a campfire program with songs and skits! And more!

This might be a nice course to take while your spouse attends BALOO!

This training will be a hands-on training experience for Cub Scout families. Activity (Class B) Cub Scout uniform is recommended but not required for this training.

Be prepared to spend the entire day outside as this is an outdoor training. Bring lip balm and a canteen/water bottle.

Lunch will be provided.
